# RENOVATION PROGRAM

# SAVE TIME AND MONEY

MGroup™ is here to help you through your renovation process. We've provided materials for hundreds of hospitality projects over the last 20 years. Our manufacturing team is well versed on the difference in the two types of construction and what is required to ensure each job runs smoothly and successfully. Our countertop and cabinetry manufacturing are managed under one roof to ensure the two components are properly coordinated.

We can recommend certified installation teams who specialize in hospitality construction and provide a turnkey solution to our clients. We offer field surveys that allow us to be on-site with projects to verify site conditions and deliver materials based on the project's construction schedule saving you ample time and money.

## PRODUCTS

### LEAD RENOVATION SPECIALIST

Matthew Van Norman, our lead renovation manager, oversees the development and oversight of our renovation program as the market continues to grow. Matthew has been in construction management for over 10 years and structural engineering for over 8 years.
